MAX OSSLO LABOR RACKETEER

Extortions Exposed In Grand Jury Report

REPORT OF THE 1939 SAN DIEGO COUNTY GRAND JURY OF ITS INVESTIGATION INTO THE ACTIVITIES OF LABOR UNIONS

TO: The Honorable Howard W. Smith,
Chairman Special Committee to Investigate
The National Labor Relations Board
Room 139, Old House Office Building
Washington, D. C.

Upon receipt of many complaints in regard to the activities of labor unions and their business representatives, most of which concern the activities of Max. J. Osslo, business representative of Local 229 of the Amalgamated Meat Cutters & Butcher Workmen of North America, and Ralph Rocks, his assistant, this Grand Jury began a thorough investigation, lasting over a period of ten weeks, of union activities.

During this investigation the Grand Jury saw before it more than seventy-five witnesses, including Max J. Osslo, Ralph Rocks, John Lydick, Manuel S. Espinola, Hercules Dakis, William Cabral, J. B. Skinner, and other former or present paid executives in charge of various branches of local union activities. There were also called many independent butchers and meat cutters, fish handlers, store owners, and managers, as well as executives of meat packing concerns doing business in San Diego.

The investigation was directed along the line to determine whether un-American activities had been indulged in the conduct of any particular union and particulary whether force, threat, intimidation or coercion had been used or extortion exercised. Also, whether activities of any union under investigation had caused a hardship upon American citizens engaged in business, either as employers or as employees.

This Grand Jury feels that certain definitely objectionable practices, pursued by a few individuals who abuse their authority, as distinguished from the membership of labor unions at large, should be publicly condemned, so that the legitimate membership and objectives of labor unions will not be sabotaged by an exceedingly small minority element within their own ranks.

This report reviews the facts disclosed in evidence before the Grand Jury, which was recorded by a shorthand reporter and is available. The investigation of activities naturally developed into different subjects, to wit:

1. Organization of Fish Handlers.
2. Organization of Poultry Workers.
3. Organization of Grocery Clerks and Food Handlers.
4. Independent Butchers.
5. Organization of Packing House Employees.
6. Cannery Fishermen's and Hook & Line Bait Boat Fishermen's Union.
7. Plasterers' Union.

ORGANIZATION OF FISH HANDLERS

In the summer of 1937 there were approximately 40 men employed along the San Diego waterfront as fish cleaners and handlers, working for various wholesale and retail fish markets. Most of these employees had been engaged in this work in this community for a number of years, some of them for as long as 20 years. Prior to 1937, these workers were not organized into any union. During the summer of 1937, Max J. Osslo, Business Agent of the Local 229 of the Amalgamated Meat Cutters & Butcher Workmen of North America, hereinafter referred to as the Butchers' Union, went to all of the owners of the fish markets and demanded that their employees become members of the Butchers' Union. The employers without exception declined to influence their employees for or against joining this union but permitted Mr.Osslo to hold meetings of the employees on the subject of membership. Under threat of a boycott under which their fish would be declared unfair and members of the Butchers' Union would refuse to handle any of it in San Diego markets, all but one of these employers signed a contract with the union. This agreement bound the employers to hire only union men and thus compelled all employees to join the Butchers' Union within two weeks of being so employed.

After securing these signed contracts Mr. Osslo then compelled all employed fish handlers to sign applications for membership in the Butchers' Union pointing out the fact that their employers would be forced to discharge them if they did not do so. A few of these fish handlers voluntarily joined the Butchers' Union, under the promises that they would secure higher wages and shorter hours, but the majority of them applied for membership and were initiated into that union solely because they were told they would have to do so in order to keep their jobs. As a result, the Butchers' Union secured 39 members among the fish handlers. As a result of unionization, the fish handlers did secure the benefit of a reduction of working hours from ten to nine hours per day, and fixed hours, despite the fact that handling of fish could not be controlled or limited to the hours fixed which thereby worked a hardship on the industry. In most cases no increase in pay was obtained under the union contract; in a few cases the more experienced and efficient employees had been receiving larger salaries before joining the union. However, in case of a few inexperienced and less efficient employees wages were increased.

Eash fish handler member, thus compelled to join the union, was charged an initiation fee from $5.00 to $25.00 and monthly dues of $3.00. Parenthetically, it might be noted that the initiation fee originally fixed at $5.00 was stepped up to $25.00 depending upon the time the men took to submit their application and threats of these increases were used as coercive force in obtaining membership.

By May 1939, most of these fish handlers had personally become dissatisfied with their membership in the Local 229 of the Butchers' Union for the following reasons:

1. They were organized much against their will bordering on coercion and high pressure tactics on the part of Max Osslo and Ralph Rocks of the Butchers' Union.
2. That they had very little voice in the matter of how their union was run, frequently being deprived of the right to express themselves in open meeting of their union.
3. That the heavy dues of $3.00 per month plus assessments, fines and cost of dance tickets which they were unable to sell was imposing a financial hardship upon them which they were unable at times to meet.
4. That they desired to organize their own independent fish handlers association similar to the Fish Handlers and Fileters Union in Los Angeles which operated separate and apart from the Meat Cutters and Butchers Local of Los Angeles.
5. That those members who were delinquent and behind in their dues were constantly harassed by Osslo and Rocks of the Union into paying the delinquent dues under threat that they would lose their jobs.
6. That Osslo constantly demanded that they report for picket duty at remote points immediately after a full day's work of their own, which gave them no opportunity to bathe or eat.

About the 10th or 12th of May, 1939, 27 of the 31 employees of six fish companies along the waterfront, namely; Chesapeake Fish Co., People's Fish Co. (Retail and Wholesale), San Diego Fish Co., Ltd., Star Fisheries of San Diego, Bregante's Seafood Co., and Union Fish Co., actually formed their own association in accordance with the provisions of the Wagner Labor Relations Act. Officers were elected and Board of Directors named, consisting of one representative from each of the various groups of employees. Dues were fixed at $1.00 per month per member with no provision

(Continued to page Six)

JOSEPH MOCK TO GET JOB

Bets are being made by the politically wise guys that after the civil service "examination" smoke is gone Joseph Mock will get the job of Mission Beach amusement manager that pays a salary of $161 to $201 monthly. How anybody imagines that a man who is not worth more than a measly $161 will make an amusement center pay which takes the ingenuity of an enterprising brain that has been schooled in the game for most of a life-time is for our politicians to show us.

But if Mock does not get the Mission Beach job, he is being wagered on to get the $200 a month job as city safety "expert" because he has the right political connections.

SATISFACTORY TO THE PERVERTS

Mayor Benbough is the cutest little bull-shooter on the city council; he spreads it too thick, though, to make it stick and by the time he gets through he's smeared all over himself so it stinks.

Case in point is the last council meeting when my letter concerning Rear Admiral Jos. R. de Frees, Commandant 11th Naval District came up for reading in the council. In a caucus before the meeting it had been decided to file that letter without reading because it asked pointedly why the police had not identified the performers of the degenerate show on Dec. 20 and brought them to court the way the Naval authorities had done with their enlisted man who had taken part in the sexual orgy. But the Mayor got scared at the last moment that there would be some hot verbal fireworks if the letter were not read in meeting which would result in worse publicity than reading it. As the time came to take up the reading of the letter the city clerk who expected the letter to be filed without a reading waited and waited to hear a motion to dispense with reading it, but nobody made the motion, so finally he gave up hope that the prearranged steamroller would get started and read it aloud. No sooner done than the council made a motion to file it without action. To this I demurred but Mayor Benbough replied that if I only knew how the dear councilmen had been discussing the matter for a whole hour that morning & how many reports they had had and how the matter was being investigated, I would realize that everything would come out satisfactory, would say no more about it and be satisfied.

The councilmen had spent a whole hour on the anxious seat scheming means and ways to hush up the matter and listening to various reports of who was involved and wanted it all kept quiet. And Benbough imagined that I would be kept quiet if he handed me his bull about "satisfactory" outcome. I replied that nothing would satisfy me except arrest and prosecution of all the performers. To which he retorted that he was not interested in satisfying me. And that stinks. Benbough and the council are in cahoots with the police to protect the performers and those who threw that party. They have always protected vice as long as the cashregisters ring, that is why they schemed to be elected and lied to the people during the last campaign.

ITALIAN BATTLES JEW

The Giannini-Morgenthau battle for control of the Bank of America is proceeding to the stage where Giannini openly charges Henry Morgenthau with deliberate sabotage of the Bank of America to destroy the market value of its stock that it might be picked up later for a fraction of its value. Giannini made that charge at a meeting of stockholders in San Francisco and repeated it in pamphlets which are being distributed.

This tactic, charged to Morgenthau, is nothing new in the history of Jewish banking. Henry Ford charged the Jews with the same tactics when they tried to ruin the Ford company and take over control. Ford bought up all outstanding stock himself in selfdefense and became a multimillionaire instead of handing over the stock to the Jewish saboteurs.

These Jewish tactics were employed in postwar Germany and resulted in the Jews practically owning Berlin and all industrial properties of the Reich. By these tactics Jewish Bankers rule England and France and to a large extent control American banking through their secretary of the U. S. treasury.

TROWING SAND IN THE PUBLIC'S EYES

Mayor Benbough is getting all het up and writing letters to the council proposing abolition of the police merit system and a new ordinance to "control" stag-parties. You will notice that it all follows step by step my detailed protests of the conduct of the police department. His Honor's proposals read nicely in print and receive good mention in the daily papers to detract attention from the fact that the present administration works hand in glove with the vice elements and the underworld to "keep the cash registers ringing" and in the process I dig up one nasty mess after another and expose the clique.

Before one pays any serious attention to his Honor's acrobatics in writing new ordinances to do what the administration refuses to do with all the powers they have now, bear in mind that they still did not put on two policewomen to patrol the night-life spots as they promised to do when the women of the Civic Center group appeared before the council. And so now they promise to write more ordinances if the public would only say nothing about the mess they are in at city hall.

The police department has been collecting gratuities from liquor merchants and other sources on and off at all seasons of the year. So when the two policemen were more interested in collecting six cases of beer than catching a thief, it was quite "natural" according to time honored "custom". They used to collect hundreds of dollars from Herman Hetzel, Johnny Deel, the underworld, the pawnshops and automobile-loan offices. That is why the police merit court did not consider it "out of line" that they collected six cases of beer. Only six, for evidently they could not stow away more in the police car.

The police, the mayor and the council do not want to identify and arrest the performers of the pervert "show" at Eagles Hall or the lewd dance for the "enjoyment" of drunken revelers at the Automotive Trade Association party that same night. And to throw sand in the public's eyes they pretend that they have no power to enforce the state law, because they did not write a city ordinance covering the same ground. Do they think the public does not realize that the council protects vice?!!

The burlesque show at the "Hollywood" Theatre proves it. Dr. Bell admitted to the council that no burlesque show "pays" unless it is indecent, but just the same he and the chief of police gave a license to this show on June 7, 1939, knowing that it could not be a "success" unless it was indecent. At the same time the **council fired the policewomen** to make sure they would not stop the show. So here is the whole thing in a nutshell.

RADIO TALK OVER K G B JAN. 18, 8:15 P. M.

Those Burlesque Shows

Councilman Knox asked at the last council meeting on Tuesday, for a report by City Welfar Director Dr. James Bell, concerning certain burlesque shows at a local theatre where minors are known to be admitted. Dr. Bell replied that in his estimate the theatre named should have its license revoked because it violates the moral code. The city council instructed Dr. Bell to render the report.

What I wish to point out is that our Welfare Director took no steps to close that show till a councilman received complaints and brought it out in meeting.

Following this episode in the council chambers later that same morning a letter written by me to the council was read in which I called attention that at a recent stag party the Naval Commandant took immediate action to identify an enlisted man who had conducted himself quite badly and in consequence was dismissed from the Navy. But even after the Naval Commandant had called Dr. Bell's attention to what type of show it was that resulted in the dismissal of the enlisted man, the city police has done nothing as yet to arrest the other performers who according to eye witnesses were much more guilty than the enlisted man.

When my letter was read Mayor Benbough immediately asked me to say nothing more about the matter because it was being investigated and would be handled satisfactorily. Again I am asking why was it not investigated sooner and why are they waiting till I protest before our public authorities go through the motions of doing their duty. In reply to Mayor Benbough's assurance that everything will come out satisfactorily, I stated that I would not be satisfied till the police arrested the other guilty performers and convicted them in court as the Navy had punished their man. But Mr. Benbough replied that he was not interested in giving me that satisfaction, because I am only one man and the public interest is not being represented by me.

Just as I foretold that the two policemen who helped that truckdriver get away with 940 cases of stolen beer and returned to the police station with a gift of six cases of beer in the police car, instead of investigating why the driver gave away cases of beer, which would have shown them that it was stolen beer;—just as I foretold then that the policemen would be whitewashed, I am advising you now that Mayor Benbough and the police will never give me the satisfaction of identifying the guilty performers and bringing them to book. The Mayor seems to imagine that I am the only one who demands a clean city, since I am apparently the only one who writes letters to the council on that subject and that I can been ignored without any public protest backing me up. This is a matter for you folks to decide. Are you with me in my insistence that the police do their duty as promptly as the Navy authorities did theirs, or do you favor a whitewashing investigation that will file my complaint and say that it could not find the guilty parties just as those two policemen could not find the thief who was making them a present of six cases of beer for their kindness in helping him get away with a whole truckload.

Hore-Belisha

I have been asked by a good many people to tell them how to pronounce the name of the former Secretary of War in England, Mr. Hore-Beleesha or Hore-Belaisha. The name has been derived from two Hebrew words. The first half is Horeb, a mountain in Asia, and Elisha like the name of the prophet Elisha. So you can take your choice. You can either call him the English way and say Hore-Beleesha or you can use the Biblical terms and say Horeb-Elaisha.

"Christian Front Rebellion"

In New York City Edgar Hoover rounded up 18 alleged revolutionists and an assorted assemblage of guns, rifles, a machine-gun and mind you, even a sword with which those 18 were going to drive 18,000 policemen of New York City some place or other and establish a dictatorship. While Mayor LaGuardia was scoffing at such front page publicity for Mr. Hoover, one man had to be let go because it was a case of mistaken identity. Now there are only 17 left who will be tried in federal court on charges of attempted overthrow of our government by force and violence.

The arsenal of the 17 revolutionists would not be sufficient to arm a first class mob of gangsters who are operating on the streets of Chicago, New York and other cities. In fact no up-to-date gangster would use such outdated outfit. They have better and more powerful machine guns and other means of inflicting damage upon their victims. Under normal conditions the rounding up of 17 misguided individuals would have received no more notice than the usual gangster stories. But Mr. Hoover replies to those, who like Mayor LaGuardia laugh at his claims that 17 men would have won out against the 18,000 police of New York City, that the Bolshevist revolution was initiated by only 23 key-men. Mr. Hoover seems to forget that those 23 Russian revolutionists were well financed by American, British and French bankers who wanted to overthrow the Czarist government in Russia, while the 17 alleged revolutionists have announced themselves in opposition to the crowd that financed the Russian revolution.

The name "Christian Front" in connection with a revolution is an insult to intelligence to all true Christians. Christian is as Christian does. No Christian is a revolutionary by force and violence and no Christian advocates race hatred, for the Christian has risen above it. Thus we read in the papers and hear over the air that the Christian Front organizations in other cities are denouncing the foolish actions of the 17 alleged revolutionists. To the extent that America is a Christian nation, we can rest assured that neither race hatred and persecution nor revolution by force and violence will make much headway. There is quite a difference between Europe and America. Which does not mean to imply that Christians just lay down and submit to injustice without making the proper effort to materialize justice. But the Christian way is not by bullets, it is by ballots and good government. A Christian never gives up his birthright, he sticks by principle come what may.

"Breathing the-Air-in"

Last week in my radio talk I told you about the value of proper breathing. How important it is to fill your lungs full of air and how very important it is to exhale so that you throw off all the carbon dioxide containing many other poisonous matter which the body eliminates through lung action. On Monday morning, this week, a well known San Diego insurance man stopped me on Broadway and congratulated me on my radio talk concerning the value of proper breathing. He said his wife had stepped out on the porch in the morning and was doing her exercises. When he went to see what she was doing out there she lifted up her chest and said: "See, I am breathing the-air-in" as de Aryan told us to do. We both had a good laugh over it and I promised I'll accept this play of words. I would be more than repaid for all the work I did this year in my radio talks if it will remind you each time that you hear the name de Aryan to breathe the-air-in and to do it whenever you think of me. My business is to help make this a better world and it cannot become a better world till people learn how to master their very organism upon which they depend for their life here upon earth. This body is the only means we have to improve ourselves by proper conduct. This is the moral LAW which none of us can escape. If we live right, according to the eternal plan of Providence, we prosper and evolve into the very likeness and image of our Creator. If we violate the moral LAW we degenerate until we murder each other claiming that it will establish liberty and democracy.

Sound Mind in Sound Body

People who are not healthy in body are not halthy in mind and spirit. Unhealth is the result of violating God's eternal plan when the Creator fashioned this multi-organism which is our body. Every organ must function properly according to its purpose that all together may produce that feeling of harmony and the better spirit may operate through our senses. This is impossible as long as the blood is full of impurities. And to purify the blood we must learn to empty the lungs of all the poisons through proper oxygenation and then fill the blood with all the good that is in the air around us. Don't you know that plants derive nine tenths of their sustenance out of the air? And we are nothing else but vegetable compounds organized to obey the impulse of the divine EGO which is the spark of consciousness in you and in me. We still have to take the energies of the air and through proper chemical mixture enrich the blood that we may enjoy health and the courage that comes with a clean heart and a clean conscience.

52nd Broadcast

To-night marks the end of a year of radio talks over this station. How fast time flies. First I hired the facilities of KGB just for one talk and then for another and as I told my early audience, I decided to make it a regular program as regular as the issues of the BROOM which have always come out on time and have always been paid so I owe nothing. This program also has been paid promptly even though at times I did not know how I could make it. But when I am at a loss I remember to breath the-air-in and turn my thoughts to my Creator who has given me a task to do here and so my inspiration comes, my ingenuity unfolds its treasures which materialize in right action that makes me financially solvent.

I am quite sure that if you, too, learn to place your faith in God and attend to your business here in life religiously and persistently, in that spirit, each breath that you take will bring you one step nearer to realization of the Power and the Rule of the Creator here, now, for your benefit and for mine. In that way we cannot go far wrong.

M. Willis and William S. Baird denied a petition for modification of an injunction, previously issued by Judge Brand, prohibiting the Newspaper guild from picketing advertisers of the Huntington Park Bulletin.

Their ruling upheld a decision of Judge Brand that constitutional freedom of speech does not give unions a right to involve innocent third parties in labor disputes.

Secret Rites of Oriental Group

(Los Angeles Examiner, Jan. 18, 1939)

In one of the most startling lawsuits ever to grow out of the secret rites of Oriental cults, a 17-year-old girl, seeking $1,000,000 damages, told this astonishing story.

She alleged that at the age of 11 she was forced to enter a bed in a Norco cabin with Otoman Zar-Adusht Ha'nish, leader of the Mazdaznan cult, and one of his disciples, named as Henry Sorge, and, in the name of the Mazdaznan faith, was violated.

The girl is Irma Weber of 1348 South Ogden drive. The suit was brought in her behalf by her mother, Mrs. Ida Weber, and was filed by Attorneys Faye S. Galen and John F. Roberts.

Defendants Listed

Listed as defendants, with Ha'nish's name missing because he is reported dead, were: Sorge, the Reorganized Mazdaznan Temple Association of the Associates of God, Colonel Arthur Fitzroy Gault (of London, England) the -Rev. Dr. Gilman Beeler, William Konrad Sandberg, Kurt Williams Graechen, John Vinson, trustee of the Mazdaznan Electors, a California corporation; Emanuel O. Bachmann, member of the Mazdaznan Electors and said to a **wealthy oil man,** and 20,000 John and Jane Does, members of the cult.

As a result of her experience which allegedly occurred while a cult meeting was in progress in another part of the cabin, the girl, according to the complaint:

> "Has suffered continuously and become reluctant to associate with other persons due to a mental complex resulting from the assault, and has been unable to join her friends in girlish enthusiasm."

Moreover, the complaint set forth, the girl's health has been affected.

This is the stonishing premise—the teachings of Zar-Adusht Ha'nish—as stated in the complaint, to the cause for action:

> "That young girls between the ages of 10 and 13 should have revealed to them the facts and truths of womanhood and that they were blessed and fortunate to have the opportunity of learning all the facts of womanhood before they arrived at their maturity and that such teachings would prevent them from being ignorant and uninformed; and that these things were taught to young girls by actual demonstration . . . "

The assault upon Miss Weber was declared to have occurred August 13, 1934, while she was attending a prayer meeting at Norco, supervised by Zar-Adusht Ha'nish, who was styled an "absolute sovereign", ordained to "teach and define the perfect law of life".

The girl was told by Ha'nish, she said, that she needed special breathing exercises and diet instructions before she could become a full-fledged and active member. She was ordered to appear at the parish home, or cabin, she said.

Upon her arrival, she stated, she found Sorge conducting a meeting and Ha'nish awaiting her in a rear room.

> "As soon as she entered," says the complaint, "she was instructed to remove her clothes so that the tenets of the corporation could be properly taught her, and being young and uninformed, followed instructions and did remove her clothes.
>
> "Thereupon she was ordered to get into bed, and did so, and thereupon Otoman Zar-Adusht Ha'nish did also enter the bed, instructing her that it was necessary for her to have full knowledge of the Mazdaznan faith by actual knowledge, and thus proceeded to clasp and thus restrain Irma in bed until Sorge appeared.
>
> "When Sorge appeared he immediately disrobed and entered the bed and in the presence of Ha'nish continued instructions of the faith as outlined."

* * * *

No Love Rites In S. D. Cult, Is Denial

HOLLYWOOD,—A 17-year-old school girl's $1,000,000 seduction suit accusing the reorganized Mazdaznan Temple association of Associates of God, its officers and 20,000 members of conducting a strange cult which allegedly instructed young girls in the "truths of womanhood" as an initiation rite, has brought a heated denial from a cult executive.

Irma Weber said that when she was 11 years old she was "seduced, raped and assulted", in a San Diego county cabin as a membership prerequisite.

Emanuel O. Bachmann, Mazdaznan elector and executive of a Long Beach oil company, denied her charges.

"Her story," he said, "is a mere figment of her imagination."

* * * *

Blackmailing Religious Group

HOLLYWOOD,—Attorney Faye S. Galen said she was investigating the reputed wealth of the cult known as the Reorganized Mazdaznan Temple association of Associates of God, and other phases of the worship.

* * * *

Another Ritualistic Defamation Story

When Dalbert Aposhian was found dead in San Diego, leaflets printed in London, England, appeared several months later on the streets here ascribing the mutilations on Aposhian's body to **Jewish ritual murder.** The story was so rank, together with other agitations conducted by local Silvershirts, that THE BROOM exposed it resulting in the disbandment of the Silvershirts in San Diego.

Not having met Irma Weber personally and having never been in Norco's headquarters of the Mazadaznan group, we cannot exactly tell how this "ritual" story has been cooked up. The charges made against Dr. Hanish, who died in 1936 are preposterous, to say the least. Why did they wait six years to bring charges against a man dead four years?

Anyone who knows Henry Sorge, knows that he is incapable of "seducing" an 11 years old adolescent who from the charges appears to be "peculiar". On the face of it the lie is patent, for if the "cult" consisted of "free love" Sorge would have certainly had plenty of more attractive material at his disposal than a melancholy child, immature, hysterically upset during the period of oncoming adolescence.

But Mazdaznan is quite the contrary from what its adversaries say about it. It enjoins purity in its moral code because it stipulates eugenic mating among the best. Its standards of moral are far above the average as a religious cult. Mating is a sacrament and marriage is made in heaven, not a trifle.

Not wishing to do any injustice to the girl complainant, since she might not be complaining for all we know, the suit being filed by her mother in hopes of blackmailing Sorge and Bachman who are financially responsible persons, we could not reconstruct exactly what happened on August 13, 1934. But knowing how many morons of the lunatic fringe expect miracles and something for nothing we know plenty cases where lawyers have been charged with corruption because they did not "win" a suit that had no merits; Doctors have been charged with malpractice, because the patient saw a good opportunity for blackmail; and half-lunatics have pestered not only Dr. Hanish, but many others with demands that they be "cured" of this and that ailment and when told that nature alone cures by proper living, thinking, exercises and diet, the same lunatics turned and accused Dr. Hanish of "misrepresentation". You cannot cure a half-crazy person who looks for miracles.

In the newspaper game I have been pestered persistently by half-wits who insist that it is my business to "get them justice". The Welfare boards and charity organizations are in hot water all the time because of demands by imbeciles who imagine that the world owes them a living.

One must look much deeper for the reason why a group of people whose membership is mostly of German and Nordic descent, suddenly finds itself confronted with a suit that has all the earmarks of intending nothing else but to smear the defendants in hopes that after the case is dismissed the taint will stick, nevertheless, at a period when it is "un-democratic" to be of German or Nordic descent.

HOW MOE ANNENBERG GOT AN ANNUAL INCOME OF $500,000

By Whidden Graham

NEW YORK,—I am not interested in pushing the sale of Collier's (for which I used to write editorials at ten cents per word) but would suggest that readers of the BROOM, who wonder how a poor immigrant Jewish boy developed a business reputed to yield him $500,000 annually, should get the issue of Collier's for Jan. 13th. In it they will find the beginning of the story of Moe Annenberg's rise to fortune. They will learn of Moe's connections with the crooked horseracing racket, which flourishes all over the U. S., **and takes hundreds of millions of dollars** from the poor boobs and suckers who think that they can pick the winners in thousands of horse races run daily on hundreds of racetracks. If the races were honestly conducted they might win. As it is, they haven't a ghost of a chance. But Barnum was right. A sucker is born every minute. And so we have millions of chumps who turn their dollars over to the "bookies", as the professional layers of odds are called.

In getting the public's money two powerful agencies are at work. Practically all our great advertising sheets, miscalled "news" papers devote several columns, and in some cases a whole page, to boosting the horse race racket. The publishers of these papers know that they are giving many thousands of dollars worth of free publicity to the racketeers, but they have no scruples against helping the bookies get their easy money.

Moe Annenberg put the business of catering to the millions suffering from the gambling disease on a business basis. He is now being prosecuted by the U. S. Government for non-payment of income taxes, and it is reported that he had been in receipt of about $500,000 yearly. All the facts will doubtless be brought out when the charges against him are brought to trial. Whatever the outcome may be, the revelations should do something to break up the unholy alliance of the "news"papers and the crooked racetrack racket.

Read: "Ireland in a Warring Europe"

I strongly urge every reader of The BROOM to read the article with the above title in the Saturday Evening Post for January 13th. It is a plain story of British humbug and hypocrisy in the pretense that England is a friend to democracy and the rights of little peoples. The author, Maurice Walsh, has an international reputation as a writer of fiction. In this article he shows himself to be a broad-minded clear-thinking statesman, who sees through the bunk and bluff of the British Government about protecting the rights of the people of Czecho-Slovakia, Poland, Austria and Finland to freedom and self-government, while denying those rights to one-fourth of the people of Ireland.

It is true that the Irish are a most ungrateful people. When the good kind Norman-English went over to Ireland more than 600 years ago, bringing the blessings of landlordism, poor-houses, jails and syphilization, did the Irish receive them with gratitude? They did not. They whanged rocks at them, stuck sharp spears into their gizzards, and belted their thick heads with battleaxes. For centuries the favorite outdoor sport of the Irish was lying behind a hedge to take a shot at British landlords or their agents. So it is not surprising that Mr. Walsh protests against the continuing injustice of British rule over the six northern counties of the green isle of the northern Atlantic, and brands as hokum and guff all this British baloney about England as a democracy, and protection of the rights of small countries.

There are a good many Millions of Irish-Americans in the United States who have not forgotten the iniquities of British rule in Ireland for six centuries. I hope that each and every one of them will join in protesting against the British propaganda in this country designed to drag the U. S. into the war with Germany. Father Coughlin is right. There is not the slightest excuse for our taking the British side as we did in 1917. Let the Irish-Americans make this clear to their U. S. Senators and Congressmen.

SUMMONS

Superior Court State of California
County of San Diego
No. 98157

Ada L. Tarien, Plaintiff, vs. Henry Tarien, Defendant.

Action brought in the Superior Court of the State of California in and for the County of San Diego, and the Complaint filed in said County of San Diego, in the office of the Clerk of the Superior Court.

The People of the State of California send greeting: To Henry Tarien, Defendant.

You are hereby directed to appear and answer to a Complaint in an action entitled as above, brought against you in the Superior Court of the State of California, in and for the County of San Diego, within ten days after the service on you of this summons—if served within this County; or within thirty days if served elsewhere.

And you are hereby notified that unless you appear and answer as above required, the said Plaintiff will take judgment for any money or damages demanded in the Complaint, as arising upon contract or will apply to the Court for any other relief demanded in the Complaint.

Given under my hand and seal of the Superior Court of the County of San Diego, State of California, this 21 day of November, 1939. (Seal of Superior Court)

THE POCKETBOOK of KNOWLEDGE BY TOPPS

JEWISH CAHILLA DECLARES WAR

All Opponents to Jewish Domination of Independent Governments Marked for Destruction.

The average person who has not studied world history and ethnological corelation so as to understand why certain racial groups excel in one line of activities while other groups persistenly engage in an opposite line which can be traced for generation after generation back to antiquity,—the average person is not quite able to properly understand the contemporary picture of the war for world dominion. Already in the days when the white or Aryan race was yet in its cradle in the mountain plateaus of the Himalayan ranges, the spiritual teachers of the race admonished them to beware of the demons in human shape who were intent on gaining dominion of the world by perverting the truth and misleading the credulous and the unwary to chain them as slaves to their economic, political and religious chariots for everlasting exploitation of their productive labors.

One of the first leaders of the Aryan group, who taught the race that it must give up hunting and raiding, but must settle down and turn to farming in the sweat of their brow to earn their living honestly, by producing it, was publicly nailed to the cross seven thousand years before Christ, because he was a "traitor" to the dark powers who foisted and exploited ignorance and superstition. History gives his name as Zarathustra of Zoroaster. This being the name of an office and not of an individual. It denotes in English PRINCE of PEACE. Six more Zoroasters followed and the last one was crucified on Golgatha upon orders of the Jews on exactly the same charges as the first, namely of being a "traitor". Whoever betrays the machinations of the black magicians is in danger of his life and reputation; they shrink before nothing. And even Jesus refused to yield to the SANHREDIN to lead the Jewish people to war against the Romans for WORLD DOMINION.

But the Jewish ambition has not died out.

The present war in Europe is Jew instigated, Jew financed and Jew conducted. It is the Bank of France and of England that dictates the war and America is to be drawn into it by hook and by crook. The latest wrinkle is to incite us to finance Finland and once the dike breaks and the little flow of American aid grows, they hope to stampede us into sending another expeditionary force to bolster up the dominion of the Bank of England and of France which rules European destinies. All of this, of course in the name of "democracy". The moniker "democracy" is synonymous with Jewish dominion.

To accomplish this program the Jewish leaders, the CAHILLA, have determined to "chop off the heads" of all groups which oppose this program. They concentrated on Fr. Couglin and had him "barred" from the air. But it did not work. While the Jews dominate Roosevelt and the New Deal, there are enough white people yet in America who own radio stations that defied the Jewish edict and Fr. Coughlin continues to raise his warning voice against our embroilment in the war for Jewish world dominion.

Next the CAHILLA concentrated on breaking up the Bund by "chopping off the head" and got Fritz Kuhn convicted of an offense that was none of the business of the State of New York. None of the Bunds-people complained about Kuhn's defalcations, they had all the machinery to take care of him right within the bylaws and organization of the Bund. But the Bund dared show up the Jews in public. So the Bund is "traitorous" to Jewish dominion. Thomas Dewey was promised Jewish political support in his candidacy, if, when and as Kuhn is "convicted".

The same fate befell the leader of the "Christian Front" who now is facing a fake charge of "revolution" before federal courts after press dispatches announced plainly that "the men, who pleaded innocent when arraigned, were charged with conspiring to overthrow the government, authorities said, **in order to give the government jurisdiction".**

Which goes to show that by hook and by crook something had to be charged to get them discredited at least, with big propaganda headlines and smear stories of page-wide pictures of a measly and out-of-date "arsenal", if it only would break up the backbone of those who dare stand out frankly against Jew dominion of America. Even the Half-Jew La Guardia had to scoff at the idea that 18 "rebels" could lick his 18,000 New York City police. J. Edgar Hoover admitted that he made the arrests and put on the big smear-story on specific request of Frank Murphy as his last "job" before he joins Frankfurter on the Supreme Bench, knowing full well that is was hysterical propaganda of the rankest sort.

But the CAHILLA will not rest. They are after the religious descendants of the very first Zoroaster who exposed the conspiracy of world dominion by the powers of darkness through force and violence and the perversion of government to tyranny in place of liberty and opportunity for all. The modern handful of apostles of the Sun-God MAZDA whose children never cease to spread light and shoot their arrows unfailingly to the mark, giving light and understanding wherever their light-bombs hit and explode, revealing the machinations of the dark powers, have an association in Los Angeles. Their young leader, Henry Sorge, of German descent, is now to be "chopped off".

Girl Asks Million In L. A. Cult Suit

LOS ANGELES,—A $1,000,000 damage suit was filed against a cult by Miss Irma Weber, 17, who charges she was betrayed **six years ago.** The suit, filed through her mother, Mrs. Ida Weber, is against the reorganized Mazdaznan Temple Association and Associates of God, with Henry Sorge as co-defendant. Four others named as connected with the temple are defendants.

THE PLAN IN ACTION

By Ernest Sincere

(Continued)

Americans living in New York frequently hear of the Hebrew giving Cahilla parties in various city blocks, but that the Cahilla is a vast network of espionage and predatory actionism for worldwide Jewry, and that it correlates the progress of the Jewish nationalists all over the earth, has only been authentically uncovered since the Boer War, mostly by British military and secret service agents.

Try to grasp fully what now is to be disclosed.

In the time of George Washington there were about 4,000 Jews in this country. Most of them were already well-to-do traders. In 1783 the United States became the **first** country to grant full civil equality, and ever since then they have enjoyed political equality.

Today there is said to be, taking the Jew's word for it, 14,000,000 Jews in the world, and about 4,000,000 of that number are in the United States, **where they control 60 percent of the vital interests of our country.**

Taking the word of the military of the various countries, instead, however, it is probable that the figure of 23,000,000 Jews for the whole world is more nearly accurate. Whether the true figure is 14,000,000 or 23 million, when the statement is made that they are entirely and effectively controlled by one international organization, so constructed that one man rules it from the top, the information is labeled fantastic. But wait! Listen to what espionage agents of several countries have attested before responsible committees:—

The Jews of the world divide the earth first into two hemispheres, the Eastern and the Western. As the United States lies in the Western Hemisphere, we will confine ourselves to that alone.

THE CAHILLA is constructed on the symbol of Seven.

First, however, over each hemisphere is put a PRINCE of Jewry known as a SPONSOR. There is a SPONSOR for the Eastern Hemisphere, and a SPONSOR for the Western Hemisphere. Reliable authority has attested by the way, that the SPONSOR for the Western Hemisphere is none other than "a pinch hitter for Presidents", which explains why this gentleman occupies his position of such tremendous economic, financial and political importance in American State affairs. He is absolute overlord of about ten millions of Jews in this Western Hemisphere. He orders their lives and their affairs, and they in turn make it their business to see that he is kept ensconced in his power over American Officialdom.

The SPONSOR for the Eastern Hemisphere is not of consequence in this article. But do not miss the very important fact that both SPONSORS for both hemispheres are accountable only to AKAD HA'AM, the Unknown and Uncrowned King of Jewry throughout the earth, whose identity is kept a guarded secret.

AKHAD HA'AM rules the Jews of the earth by an effective and devastating system. He has, as has been said, his PRINCE-SPONSOR in each hemisphere. Then under these PRINCE-SPONSORS falls the seven-times-seven organization.

Under each SPONSOR there are SEVEN ARCH-CENSORS.

Under each ARCH-CENSOR there are SEVEN MINISTERS.

Under each MINISTER there are SEVEN HERALDS.

Under each HERALD there are SEVEN COURIERS.

Under each COURIER there are SEVEN SCRIVENORS.

Under each SCRIVENOR there are SEVEN AUDITORS.

Under each AUDITOR there are SEVEN MUTES.

This figures out to 968,00 influential Jews in each hemisphere (or a world total of 1,921,601) organized into a tight, rigidly-controlled body, every man knowing all the men under him but only the one man above him, and all responsive to the PRINCE-SPONSOR at the top.

There is no Jew of consequence in North America who is not involved in this terrible organization—terrible at least in its power for predatory control of Christian society—or who is not listed somewhere down the line on the roster of its obedient adherents.

Until this organization is broken and stamped out of American life, the United States can know neither peace nor stability, not to mention safety. For its control puts it in perfect working mechanism with all the influential Jews of the European continent and the Orient. At this moment it is making and unmaking governments, starting or stopping wars at its pleasure, controlling the most intricate dealings of the League of Nations, dominating political officialdom, determining the money standards of nations, including America's, directing its economics, intimidating or controlling the nation's newspapers, radio and movie screen, so that nothing can be released by any of these that is inimical to its far-flung interests.

Careful students and economists who are not in its pay, have traced the prevailing depression in America directly to its threshold. Presidents have been elected by its money. Its directing heads and their satraps often camouflaged politely in press and congress as "International Bankers" have been assiduously engaged at Buying-in-America at bankrupt prices, completely looting and eliminating the United States permanently from its pathway as a major power, reducing it to the status of a third rate vassal state subject to their officers—Isaacs, Sassoon, Samuels, et al—in the so-called "British" Cabinet.

This is the atrocious cabal to whom President Wilson referred on his return from Versailles when he said that "there was a secret power in Europe with which he could not cope". This is the terrible power that had started the World War in furtherance of its schemes, so powerful in British as well as German affairs, that the statement is made on reliable authority that orders were given to the British Admiralty and air forces that at no time during the war were Berlin, Hamburg or Frankfort to be raided, shelled or bombed, **because their homes and families were there and they had no intention of suffering physically or jeopardizing their lives in this war which they had conceived for their own world plans and financial profit.**

AMERICA'S PROBLEMS PREDICTED

In 1817 Henri de St Simon wrote: "When the population of America shall have reached the same relative degree of density as in Europe, the landowners will have ceased to be active producers; they will cease to cultivate their lands, they will become landlords, and they will find in the civil code all the necessary regulartory arrangements for re-establishing the nobility, that is, hereditary rights and privileges; in a word, a governmental regime in which the workers will find themselves under the direction of the idle."—Land & Liberty.

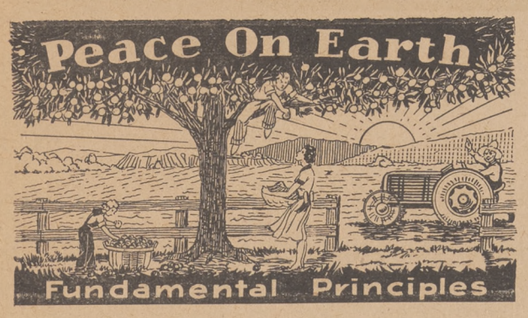
"In time of war prepare for peace!"



By C. Leon de Aryan

BREATH CONTROLS THE BODY

(Radio Talk Over K G B)

As I go about town I meet up with all sorts of people. At times I am very much surprised to discover how little they seem to know about the value of airing their lungs by systematic breathing. Proper oxygenation is absolutely necessary if you want to keep well or want to think right. So the rest of tonight's time I will use to outline the fundamenal function of proper breathing.

Lung exercise is as necessary for health and soundness of mind as any other sort of limbering-up exercise one takes in the morning or during the day. You would not dream of getting up and sitting down at breakfast without first washing yourself in basin, tub or shower. In that way you reach the outer skin of the body and refresh it by cleaning it and bringing it in touch with either the cold or hot water you pour in it. This change in temperature as well as the cleansing process is very beneficial. But how are you going to reach the inside of the body to shake it up with a change in temperature and to purify it?

The blood is the inner fluid that reaches every cell, be it brain, nerve or muscle. It feeds the bones and it cleanses every nook and corner. Systematic breathing exercises fills the lungs with oxygen which the blood takes up in the process of burning-up the waste-material in the blood and exhaling it from the lungs in the form of carbon dioxide. Systematic breathing exercise is also a perfect massage for the inner organs, the stomach, the diaphragm and the abdominal cavity and its organs. There is no such thing as constipation for people who combine proper diet with conscientious breathing exercises. Just exhale now, while you are listening, exhale slowly and long, keep on exhaling. Don't you see how you are drawing in the abdomen! How inhale fully, deeply, completely, inhale some more. Hold it. Now let go. Did you see how you expanded the lungs and massaged the whole digestive apparatus in the abdominal region! Such massage is conducive to elimination. It squeezes and rolls the intestinal ducts and loosens up the contents. Besides that the blood is purified through oxygenation and is pumped into the farthermost recesses of skin and organism so that it can absorb the fine wasteproducts deposited and nudges them out of their hiding place, carries them away and turns them over to the liver, the kidneys, the skin and lungs for elimination. It brings that rosy glow to your cheeks and you girls can save money on your cosmetics by producing your own natural color instead of fooling our eyes, while the blood is poorly oxygenated. This reminds me of what a lady recently said to one of the local luncheon clubs when she told them that the women in Germany look very pale compared to American girls. The women over there do not rouge as commonly as the girls do here. If we were to judge just by natural color, I wonder who would look the paler of the two.

Right Thinking

Breath alone is not enough. What you think when you breath, that is the goal you aspire to. The body changes every moment of your life. Cells die and new ones are reborn from the mother-cells. They either improve or they retrogress towards the mere animal tendency. We humans are still undergoing the process of raising ourselves from the mere animal level of eating, drinking and having a good time physically, to the higher human status of learning to think, to understand the workings of the universe, the basic purpose of life and how to master matter, how to master the impulses of the physical body and its desires and become lords of creation instead of slaves to animal passion, governed by fear and force instead of by reason and the love of God.

Whenever you take a deep breath and then exhale fully and take another full breath, the blood is pumped also to the brain and it helps you to think better. Instead of lighting a cigaret to help me think, I take another breath and think twice as fast as the fellow who has to depend upon drugging himself first in order to concentrate. The Master's prayer is the prayer that is most valuable as a guide: "Father Thy Will be done!" If you will reach out in your prayer, which is your thought while you take your breathing exercises, with an honest longing in your heart that you want to know the Will of God to serve your purpose for which you incarnated this time on earth, the evolutionary change of which I spoke, when the body cells die and are supplanted by new ones, naturally will have a tendency to reflect more and more the ideal of God in us and we improve upon the organism to function in accord with the plan of God.

Key to Mastery

I hope I gave you some food for thought so you may get hold of the key that makes you master over your body as well as destiny. Be honestly interested to improve this body so that it may better perform the functions and the services God sent us down here to perform and more and more understanding of God's ways, the natural ways of life, will become plain to us, so we will no longer cater to false ways of living which result in sickness, sin, sorrow, poverty and war. As children of God who is our Father, your Father and mine, we could not possibly improve upon the divine purpose. But unless we think of it with every conscious breath, we do not imprint that tendency upon the newly generated cells that replace the outworn ones and instead of progressing into the likeness and image of our Creator, we slide back towards animal tendencies until we become a slave to the body and are afraid to call our soul our own.

From now on, the first thing in the morning, say your prayers while you do your breathing exercises and last thing when you are ready to fall asleep. By calling out the divine spirit in yourself to arise and take charge of this body, you improve physically, mentally and in every way.

He Knows

Teacher—Johnny! Can you tell me what a waffle is?

Johnny—Yes'm; it's a pancake with a non-skid tread.

Science

Science is resourceful. It couldn't pry open Pullman car windows so it air-conditioned the train.

Health-Germs

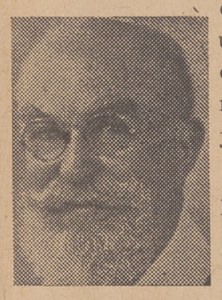
By George Starr White, M. D.

SABOTAGE OF PUBLIC HEALTH

Dear Mr. de Aryan:

The enclosed clippings will interest U.

Sulfanilamid goes merily on, altho at least 9 out of every 10 doctors who use it KNOW that 7 out of every 10 victims will be made blind or otherwise injured for life!!



Dr. Geo. Starr White

I was told that in one hospital in this city last evening there were fourteen persons made totally blind from the prescribed Sulfanilamid tablets.

One representative of the importers of this terrible drug told me in my office recently that he asked a friend if he would dare take one of the regular tablets of Sulfanilamid to see just how only one would act on his system. He took the "dare" and he told me that the terrible feeling of continued falling down and down, whether standing, sitting or lying down drove him almost out of his senses.

One day last week a man came in early in the morning to see if I could tell him what ailed him. As his eyes looked queer to me, I asked him to put his hand on a chair that was near by. He made several unsuccessful attempts to put his hand on the chair. He had lost his muscle sense as well as sense of orientation. Such a person driving an auto will head rite into another car coming his way, for he sees about forty-five degrees off a strait line. This man told me he had been given two tablets the day before by a registered MD of this city for a "cold". This man last evennig was reported to me as being unable to see out of one eye and everything looked "foggy" out of the other eye.

The question now is: IS SULFANILAMID A SABOTAGE PLOT ON THE PEOPLE WHO TAKE THE DRUG? Is Organized Medicine headed by any person who is so mentally deranged as to help carry out such a PLOT? Many think SABOTAGE is back of the pushing of this deadly drug on our trusting public!

GEORGE STARR WHITE, MD. Los Angeles.

P. S.—When a profession has NO platform to stand on that profession is ever seeking one. That is why the medical profession is ever jumping for "humming bugs" HUMBUGS like Sulfanilamid—a killing BUG!

This article as an editorial in the L. A. Evening HERALD & EXPRESS, our evening paper, shows how the PEOPLE are being duped and sabotaged!

Who is back of this slaughter of the INOCENTS?

Here it is in print!

• • • •

GREAT DISCOVERY

(L. A. Evening Herald & Express)

So many medical discoveries of great importance were noted during the year 1939 that it is difficult to select any "best 10", according to Dr. Morris Fishbein, editor of the Journal of the American Medical Association:

However, he rates the development and use of the new drug, sulfanilamide, and its derivatives as possibly the greatest of all medical discoveries.

It will be recalled that the unrestricted use of this drug by the uninformed public had to be curbed, because of its power and the danger of utilizing it for the wrong purpose.

Yet under control it has been proved to be effective in curing many social diseases, and has lowered the death rate in streptococci blood poisoning, childbed fever, gas gangrene, erysipelas, streptococci meningitis, pneumococcis meningitis, and some forms of influenzal meningitis —which hithero were almost always fatal.

A number of other new drugs, in addition to sulfanilamide, have been so potent for good that Dr. Fishbein believes that the year's statistics, when compiled, will show 1939 with the lowest sickness and death rate ever attained in the United States.

THE LITTLE PAYBACKER

It is joy to see the intelligence and loving kindness of a chipmonk. When camping in the big woods of Northern California, at breakfast time we would toss bits of our breakfast to a chipmonk that came to our door. He would eat the small bits but carry away the larger pieces to his family. All day we would be hiking and sightseeing. Around our camp were pine nuts, none very good. However, one night, lifting our pillow there was a nest of perfectly delicious pine nuts; a good handful of them. Every morning we continued to feed the dear little chipmonk, and every night under our pillow found nuts the little paybacker put there. When we went away we left a good supply of food for him. If we ever go back we will hope to see him, if not we will be kind to other ones.

Fierce animals have been known to be kind to lost children. A mother bear found a lost child and took it to her den and nourished it with her little ones. We wondered if when it was found the mother bear was shot? No doubt she was, though the article did not say so. But we kill and drive wild animals from their homes that we may posess their lands, instead of trying to live at peace with them. Perhaps away in the future mankind will have learned to be kind to all animals, and like "the lion and the lamb, lie down together".

—Satella J, Penman.

MILLENNIUM

"The lion shall lie by the lamb",
But man thinks he must live on ham.
"The spears turned into pruninghooks"
Yet butcherknives we use like crooks.
How could millennium arrive,
If only with our brains we strive
To gain our selfish ends.

The heart has to come to the front
To take in all disputes the brunt,
And give to life that binding post
Without which we would all be lost,
Cementing nations into one,
With love more radiant than the sun,
Forever to endure.

—Otto Schkoelziger.

BEYOND THE GATES

We all shall conquer soon or late,
Persistence opens us the gate
To all the treasures life can hold,
If — we are just a little BOLD.

He who's in me will show the way
The give of this lump of clay,
Will lend me His intelligence
To conquer all incompetence.

Through many windings on the road
Some day we reach the safe abode
Where we in peace and joy shall dwell
Beyond the gates of—Man-made-hell.

—Otto Schkoelziger.

STREET or P. O. BOX .....

CITY and STATE .....

democracy

By Charles H. Ingersoll
(Of Dollar Watch Fame)

NEW YORK, (Radio Broadcast),—

30 million jobs—the problem of insuring them—is, as Arthur Dunnn says in his book of this title, merely the distribution of buying power—

Ingersoll

or, more accurately, "restoring" the buying power. All the concentration should be on that single object. Knowing this as the cure for unemployment, it is no less than crime to waste any time in applying this remedy. Mass buying power is what has been destroyed and what must be restored—or rather built, because it has never been normal. We are pioneering. We have a tax system that is particularly all—15 billions of it—loaded on to the mass consumer, practically doubling the cost of everything consumed, and so halving the volume of consumption, buying and production—and causing our millions of unemployed.

How can the embargo of 15 million dollars be lifted from the mass buying power and therefore from 30 million jobs? Buying power is based on consuming power, and that is destroyed—at least half of it—by taxing power, which our Chief Justice McCalloch said was the power to destroy! Double sales price (as taxes do), and you cut in half the volume of sales, production and jobs, and make the millions of jobshortage. What will you do with 15 billions of taxes to be taken off the mass consumer? You will simply shift them on to 200 billions of social monopoly values, in franchises, natural resources, and unearned increments in cities now taxed. Untax industry, production and consumption, and put the tax on the basic privileges that directly interfere with mass buying power. This monopoly is crying out as loudly to be taxed, as 130 millions—the mass buyer—are to be untaxed, or de-taxed.

—o—

WHAT PETSAMO MEANS

WAR IS THE ORIGINAL MEANS for acquiring land. It is by no means antiquated.

Interspersed with the record of martial events in Finland recently was an item of basic significance. Thirty miles southwest of the port of Petsamo, the center of vicious fighting, is the Petsamo mine, owned by the International Nickel Company of Canada, Ltd. The acquisition of this mine by Josef Stalin will enable him to make inroads into Britian's virtual monopoly of the metal.

Canada produces 88 per cent of the world's nickel, and Caledonia 6 per cent. The rest, about 8000 tons a year, comes principally from Russia and Germany. These two countries possess the smelting and refining methods. They could use a large supply of high-grade ore, such as that at Petsamo.

So, in the names of communism, democracy or what-not, men are sent forth to slaughter one another in order that one monopoly group or the other may acquire ownership of another piece of the world's natural resources. Is England's kindly interest in the fate of Finland entirely idealistic?

THE BROKEN BRIDGE

The bridge was broken but they knew it not,
Being so busy saving drowning men.

What did it matter **how** so many got
Into the river's cruel maelstrom when
They tumble in so fast?—come help us—YOU!
Nor turn away needlessly explore
When men are drowning—but the sage withdrew
To close the bridge and save so many more.

Sweet Charity! Thou lovely Maid of Doles,
How blind thou art to the world's greater need.

For every soul thus saved a thousand souls
Fall through the rotten trestlework of Greed
Which privilege supports. And neither prayer
Nor alms can mend what Justice should repair.

—Horatio, Houston, Texas.

MAX OSSLO LABOR RACKETEER

(Continued from page One)

for assessments, fines, etc., as was the pratice with the Butchers' Union, Local 229. Notices were served to their employers that these employees had formed their own independent union and that henceforth this union would be recognized by the employees on the waterfront as their sole bargaining agent.

It is to be noticed that none of these employers had any connection with the organizing of this union, and that this association could under no circumstances be considered as a company union. However, it developed that Max J. Osslo, as Business Representative of the Butchers' Union, absolutely refused to reconize the rights of any of the fish handlers to resign from the Local Butchers' Union and form their own association and that he repeatedly misrepresented the facts in the case at the meetings of the Butchers' Union, Local 229, by declaring and maintaining that this new Fish Handlers Association was simply a company union organized for the purpose of sabotaging the Butchers' Union.

Max J. Osslo then immediately brought pressure to bear upon several employers by declaring that the fish which they sold to the various stores in San Diego would not be handled by meat cutters belonging to the Butchers' Union unless their fish handler employees reinstated themselves by paying up all delinquent dues and assessments and such fines as the union imposed upon them as a disciplinary measure for their action in attempting to form a separate union.

Three of these employers whose products was distributed to local markets in San Diego, acceded to the demands of the Union and all but one of their employees were forced to come back into the Union. Mr. Osslo charged that this one employee, Manuel Soares, an experienced fishhandler, was one of the instigators in the union "insurrection" on the waterfront and that as such, should be subject to more severe penalties which this employee was unable to meet and as a result his employer was forced to discharge him. This employee because he has been blacklisted by the union has been and apparently is unable to secure any employment in the line of work in which he is experienced.

After several unsuccesful attempts with the remaining fish companies who distributed most of their product to other than San Diego markets, Max Osslo accompanied by his assistant, Ralph Rocks, and Lester Dayton, business representative of the Local Teamsters Union, in the midst of the unseasonable hot spell on Friday, September 22, 1939, followed a large truck load of fish jointly owned by the Chesapeake, Union and the Star Fisheries of San Diego, from San Diego to Los Angeles and with the cooperation of certain union officials in Los Angeles prevented the driver from unloading the fish by telling all concerns that if they accepted that fish they and their markets in Los Angeles would be placed on the unfair list and picketed. Osslo, Rocks and Dayton and other union men from Los Angeles continued to follow this truck around wherever it went from Friday night until Monday noon, staying continuously with the load to prevent its being unloaded. Max Osslo declared that the "load would not be released" until such time as these three employers paid to the local Butchers' Union the delinquencies of their 12 suspended employees, including back dues and assessments and all disciplinary fines imposed upon these employees for their attempts to form their own separate union. The total amount thus demanded by Max Osslo was $847.60. This demand although actually against the employees, was made upon these three employers on Saturday; it was finally paid by these employers into the San Diego office of the Butchers' Union on Monday noon as the only means of preventing total loss of this load of fish. Not until Max Osslo in Los Angeles had been notified by telephone by his office secretary in San Diego that these employers' Checks for $847.60 had been left with her did Osslo permit this load to be released.

A further condition imposed upon this cargo of fish, was that the driver of the truck in which it was transported was compelled to apply for membership and pay a $25.00 initiation fee to the Teamsters' Union before any of the fish could be delivered. The fines that Max Osslo, through the Excuetive Committee, imposed upon these 12 employees, ranging from $25.00 to $250 per member, varied widely with the individuals although all of these fines were apparently for the same offense, to-wit: that of attempting to form their own independent union. It is to be noted that the president of this new fish handlers union was fined $250. It is interesting to note that part of the fines were suspended on condition that these individuals give the Butchers' Union no further trouble.

Almost without exception all of the men that endeavored to form this independent union still desire to withdraw from the Butchers' Union, Local 229, which they feel is of no benefit to them and to have their own independent organization. The only reason that they do not follow this procedure is the fear that their employers will be compelled to discharge them and that they, too, will lose their employment altogether.

An examination of the membership records of the Butchers' Union, Local 229, made on November 6, 1939, shows that of the total number of 39 fish handlers secured as members in 1937, there were only two in good standing; 23 were delinquent for periods not exceeding 60 days; six men were delinquent for an excess period of more than 60 days, but for some reason had not been suspended as required by the by-laws of the Union; four stood officially suspended on the record; one was expelled and three had withdrawn from the Union either by leaving the business or moving into another community. The fact that only two of all the employees engaged in fish handling were paid up as of the date shown is further evidence of the express desire of practically all of these employees to have their own union and to withdraw from the Butchers' Union.

This Grand Jury finds that the conduct of Max Osslo and Ralph Rocks in thus coercing these three employers to pay the dues, assessments, and fines imposed upon their 12 employees by the Executive Board of the Butchers' Union borders very closely upon the offense of criminal extortion.

It is the feeling of this Grand Jury that in the United States where the Constitution guarantees the freedom of contract and freedom of thought to every citizen, that in this situation where a majority of those employed in a given kind of work, desire their own organization and their own collective bargaining agency, they should be permitted this freedom of choice and not to be coerced into another organization in which they do not desire membership. This is particularly true here where there is not now and never has been any controversy at all existing between the employers and their employees and where the entire controversy is one of jurisdiction and is between the union and its own members.

(Editor's Note: The second installment about Osslo's Racket will appear next week, as published in the Grand Jury report.)

HORE-BELISHA'S DEMOCRACY

All through the Jewish method of stirring up discontent and taking advantage of the disturbance and the damage thus caused to enthrone Jewish influence in key-positions where the Jews, then, may rule the world, one will find that they always holler: democracy.

When the Jews murdered the Russian Czar, it was in the name of democracy, but the Bolshevik dynasty established by Leon Trotsky and his red army slipped into the hands of Stalin and where is democracy?

In the U. S. the same method is being followed out by the New Deal with its numerous Jews in key-positions in the treasury, the supreme bench, congress and governors of Key-states. In London Hore-Belisha inveigled against the "cast-system" of England just as the New Deal inveigles against the "economic royalists". To the ignorant it might appear that both are working for democracy, the truth of the matter is that this is the ancient Jewish device of arousing the rabble against the rulers that the Jews may gain the ascendancy over both. It is incitement to class hatred.

In California Harry Bridges has followed the Jewish-Communistic method successfully. He inveigled to hatred against the shipowners and succeeded beyond expectation to cripple shipping so thoroughly that British shipping which is controlled to a larger extent by Jewish agents than in the U. S. has taken over much of America's business and the New Deal "neutrality" law has finally put the kaibash on U. S. Shipping even where Bridges was unable to cripple it.

When one realizes that the Bank of France and the Bank of England is Jew controlled and that "the city" (London's Wall street) is Jew controlled and in turn controls shipping, one will see how well the "neutrality" law works together with Harry Bridges to cripple American shipping for British ascendancy. How, then, could anyone expect that Harry Bridges would be convicted by a New Deal referee of being a "subversive alien" when he so successfully carried out the ancient Jewish-Communistic program to fruition. The Protocols could not have planned it any better. "We planned it that way", say the New Dealers.

SUMMONS

In the Superior Court of the County of San Diego, State of California
No. 98156

Maria Merino Maldonado, Plaintiff, vs. Ramon Ernesto Maldonado, Defendant.

Action brought in the Superior Court of the State of California in and for the County of San Diego, and the Complaint filed in said County of San Diego, in the office of the Clerk of the Superior Court.

The People of the State of California send greeting: To Ramon Ernesto Maldonado, Defendant.

You are hereby directed to appear and answer to a complaint in an action entitled as above, brought against you in the Superior Court of the State of California, in and for the County of San Diego, within ten days after the service on you of this summons—if served within this County; or within thirty days if served elsewhere.

And you are hereby notified that unless you appear and answer as above required, the said Plaintiff will take judgment for any money or damages demanded in the Complaint, as arising upon contract or will apply to the Court for any other relief demanded in the Complaint.

Given under my hand and seal of the Superior Court of the County of San Diego, State of California, this 21 day of November, 1939.

J. B. McLees, Clerk.
